SACARE partners with ONCALL and Pemba

ONCALL, Australia's leading provider of specialist services in the Disability and Child, Youth, Family and Community Services, which is backed by Pemba, has continued to expand its offering interstate. By partnering with SACARE, ONCALL has been able to expand its high-quality services to the disability sector interstate and increase its geographic reach into South Australia.

ABOUT SACARE

Founded in 1996, SACARE is a South Australian, family-owned and operated provider of unique supported accommodation and care services for people living with a complex disability. SACARE's supported accommodation provides individuals with transitional, long-term or permanent options across several accommodation settings, including an architecturally designed purpose-built property in Salisbury which provides rehabilitation services and independent living featuring state-of-the-art technologies and individual private courtyards.

BACKGROUND TO PEMBA'S INVESTMENT

Pemba approached the Marshall family in October 2019 regarding a potential partnership with ONCALL and Pemba. Over several months Pemba and the Marshall family discussed the opportunity and the benefits of forming a partnership between two leading, high quality NDIS organisations. It was clear from these discussions that SACARE had established itself as a leading provider in South Australia with a reputation for the highest quality standards of care and high levels of engagement with its 700+ workforce and 250 clients.

THE VENDOR'S PERSPECTIVE

“Our philosophy is that every person should have access to the very best services and accommodation, enabling them to live enriched, fulfilled and independent lives. Our conversations with Pemba and ONCALL gave us a lot of confidence we were partnering with the right organisations to continue providing participants and their families with services enabling them to fulfil their goals.”

ANDREW MARSHALL,
FOUNDER & MANAGING DIRECTOR, SACARE

THE FUTURE

The partnership with SACARE provides ONCALL with a significant presence in the South Australian market and leading capabilities in complex care for individuals in supported accommodation and in-home care. SACARE's ambition to expand its services outside of South Australia is accelerated through the partnership with ONCALL given its presence in Victoria, Southeast Queensland and New South Wales.

Pemba will continue to work closely with SACARE and ONCALL to grow organically and through select partnerships with other high-quality organisations.

PEMBA AND HEALTH SERVICES

Pemba is actively looking to partner with high-quality Health Services businesses. If you are considering external investment and would like to learn more about how Pemba Capital Partners together with its partner companies to achieve significant growth, please email opportunities@pemba.com.au
